

MAE 3210 - Spring 2019 - Homework 6

Homework 6 is due **online** through Canvas in PDF format by 11:59PM on Friday March 22.

You are required to submit code for all functions and/or subroutines built to solve these problems, which is designed to be easy to read and understand, in your chosen programming language, **and which you have written yourself**. The text from your code should both be copied into a single PDF file submitted on canvas. **Your submitted PDF must also include responses to any assigned questions, which for problems requiring programming should be based on output from your code**. For example, if you are asked to find a numerical answer to a problem, the number itself should be included in your submission.

March 6 - 18 classes:

1. Textbook problem 18.17
2. Textbook problem 18.18
3. Textbook problem 18.23
4. Textbook problem 18.24
